

From the conclusion of prof. M. Samuelson, a WONCA-Europe Liaison Person, after her monitoring visit in Poland aimed at review of the organization - four month ahead of the Congress:

*"I am just back from the meeting with our Polish colleagues. The meeting was really well prepared, so we had time to go through all details.*

*We went through all aspects of the congress in Warsaw.*

*Every thing seems to run smoothly.*

- *At the moment between 1500 and 2000 attendees registered. About 600 already paid. It is the last week of early bird registration so the number is raising every day. (...)*
- *On the scientific side. The abstract reviewing procedure went smoothly and is finished. Good choice of the Keynote speakers linked to the theme. The program is balanced. The Networks well identified.*
- *The organisation in the conference venue seems good, and flexible according to number of participants. (...). "*
